Liquidity Information Disclosures: Approach to Liquidity Risk Management

ANZ HK Branch manages its liquidity risk in accordance with ANZ Group's Liquidity Policy, which is governed by a set of principles approved by the ANZ Board Risk Committee. The Policy provides a set of guidelines for the prudent management of liquidity in the normal course of business. The Branch also follows the guidance set forth by the HKMA in Supervisory Policy Manual LM-2, Sound Systems and Controls for Liquidity Risk Management.

Net funding exposures are managed through regular reviews of projected cash flows. Cumulative cashflow profiles under normal and stress conditions across different horizons are monitored against limits for each of these scenarios. The Policy also provides a framework for the management of market access and contingency planning to withstand a liquidity crisis.
