Annex 2

USE OF PROCEEDS IN RESPECT OF SUBORDINATED NOTES ISSUED AS SDG BONDS

The “Use of Proceeds” section of the Information Memorandum, shall be replaced with the following:

Use of Proceeds

The Subordinated Notes are issued as “Sustainable Development Goal Bonds”.

This means that the Issuer intends to allocate an amount equal to the net proceeds from the issue of the Subordinated Notes (referred to as “**SDG Bonds**”) to finance or refinance a combination of new or existing assets which align with one or more eligible categories and/or the Issuer's own operating or capital expenditures which align with one or more eligible categories, in accordance with the “Framework” (as defined in the next paragraph).

The “**Framework**” means the “*ANZ SDG Bond Framework*” dated November 2024. The Framework is published at <https://www.anz.com/debtinvestors/centre/green-sustainability-bonds/> (the “**Website**”).

Certain information about the Framework

On 1 January 2016, the United Nations Sustainable Development Goals (“**SDGs**”) came into effect. The 17 goals and 169 targets are aimed at addressing global challenges, including those related to poverty, inequality, climate change and environmental degradation by 2030.

ANZ intends that the SDG Bonds issued under the Framework will be aligned to one or more SDGs.

Eligible assets and expenditures

Eligible assets and expenditures are determined by the Issuer in its absolute discretion to fall within one or more of the eligible categories and meet the process for evaluation and selection in accordance with the Framework. Eligible categories are set out in the Framework.

Payment of any principal or interest in respect of the SDG Bonds will be made from the Issuer's general funds and will not be directly linked to or depend on the performance or credit standing of any eligible asset (or the performance of the Issuer in respect of any SDG, environmental, social and governance (“**ESG**”) or similar targets). This means that, without limitation:

- no property interest or security interest in favour of any investor is created in any proceeds or eligible asset or expenditure;
- the term of any eligible assets may be shorter or longer than the term of the SDG Bonds;
- eligible assets may mature, be sold, repaid, prepaid or otherwise expire before or after the maturity date of the SDG Bonds;
- allocations of amounts equal to the net proceeds in respect of SDG Bonds to eligible assets will regularly change in accordance with the Framework;
- eligible assets may remain outstanding after the maturity date of the SDG Bonds;
- the Issuer is not required to terminate the funding of any eligible asset by an amount equal to the net proceeds of maturing SDG Bonds; and
- the Issuer may, from time to time and at its sole discretion, re-allocate or apportion eligible assets and expenditures among ,and/or adjust the composition of its portfolio of eligible

assets and expenditures allocated against, the Issuer's SDG bonds, including the SDG Bonds.

Limitations

While the Issuer is under no obligation to update the Framework, the Framework may be amended, updated, supplemented, replaced and/or withdrawn from time to time and any subsequent version(s) may differ (including in a significant way) from the description given in this Pricing Supplement, which may affect the SDG Bonds.

The Framework sets out the Issuer's corporate purpose and strategy as at November 2024. It is no longer current as at the date of this Pricing Supplement. Although not incorporated by reference into or forming part of the Information Memorandum or this Pricing Supplement, the Issuer's most recent annual report and other periodic and continuous disclosure announcements are available online at: www.asx.com.au.

The Framework precedes, has not been updated for, and has not been assessed for compliance against, the International Capital Market Association's ("ICMA") more recent Green Bond Principles of June 2025 or ICMA's Social Bond Principles of June 2025.

Documents available

Subject to applicable law, copies of the Framework and any second or third party opinions (subject to consent and confidentiality requirements) and Post-Issuance Reports (as defined below and, in the case of third party reports, subject to consent and confidentiality requirements) may be obtained by investors from the Website.

"Post-Issuance Report" means any report relating to the SDG Bonds, including any progress report, use of proceeds report and impact report, whether prepared by the Issuer or a third party.

Refer to the Framework for further information on reporting, including regarding use of proceeds and impact reporting prepared by the Issuer. As at the date of this Pricing Supplement, subject to limited exceptions, the Issuer presents impact figures as "gross figures" for each project/asset, rather than apportioned based on the Issuer's lending in respect of the project/asset. This means that the impact of the Issuer's lending is lower than, and a portion of, the total impact figures.

The documents described in this section may be amended, updated, supplemented, replaced and/or withdrawn from time to time and any subsequent version(s) may differ (including in a significant way) from the description given in this Pricing Supplement. Potential investors in the SDG Bonds should access the latest version of each relevant document available.

Such documents and the Website as well as any document referred to in any of them or the contents of any website referred to herein or therein, are not incorporated into, and do not form part of, this Pricing Supplement or the Information Memorandum. **Ranking and other matters in respect of the SDG Bonds that are Subordinated Notes**

The SDG Bonds are Subordinated Notes which will rank as such in accordance with the Conditions and are not covered by a guarantee of the Issuer or a related entity.

This Annex 2 does not create any arrangement which enhances the seniority of any claim by a Subordinated Noteholder.

Subordinated Noteholders do not have netting or set-off rights and there are no cross default clauses in relation to the eligible assets or expenditures.

ADDITIONAL IMPORTANT NOTICES IN RESPECT OF SUBORDINATED NOTES ISSUED AS SDG BONDS

The "Important Notice" section of the Information Memorandum shall include the following additional important notices:

Subordinated Notes issued as SDG Bonds

None of the Issuer or Dealer accepts any responsibility for any social, environmental and sustainability assessment of the SDG Bonds or makes any representation or warranty or assurance whether such SDG Bonds will meet any investor expectations or requirements regarding such "green", "sustainable", "social" or similar labels (including for the purpose of any laws, regulations, market standards or guidance, including green, sustainable or social bond principles or other similar principles or guidance published by ICMA (the "**ICMA Principles**")) or any requirements of such labels or market standards as they may evolve from time to time.

No representation or assurance is given by the Issuer or the Dealer as to the suitability of the SDG Bonds to fulfil any present or future investor expectations or requirements with respect to sustainability or other investment criteria or guidelines which any investor is, or its investments are, required to comply with.

Second and third party opinions, assurances and certifications in respect of SDG Bonds

No assurance or representation is given by the Issuer, the Dealer or any other person as to the suitability or reliability for any purpose whatsoever of any opinion, review, assurance, certification or Post-Issuance Report (including any Post-Issuance Reports prepared by an external reviewer) and/or label, whether or not solicited by the Issuer, which may be made available in connection with the issue of SDG Bonds and in particular any eligible assets (including any second or third party opinions) to fulfil any sustainable development goal, environmental, sustainability, social and/or other criteria.

For the avoidance of doubt, any such opinion, review, assurance, certification, Post-Issuance Report or label is not, nor should it be deemed to be, a recommendation by the Issuer, the Dealer or any other person to buy, sell or hold SDG Bonds and such opinions, assurances and certifications may not reflect the potential impact of all risks related to the structure, market and other factors that may affect the value of SDG Bonds may be revised or withdrawn at any time.

Additionally, any such opinion, review, assurance, certification, Post-Issuance Report and/or label (i) is only current as of the date on which it was initially issued and the criteria and/or considerations that form the basis of such opinion, review, assurance, certification, Post-Issuance Report and/or label may change at any time, (ii) only provides an opinion, review, assurance, certification or Post-Issuance Report on certain environmental and related considerations and (iii) is not intended to address any credit, market or other aspects of an investment in SDG Bonds including, without limitation, market price, marketability, investor preference or suitability of any security to fulfil any specific investment criteria.

The criteria and/or considerations that form the basis of any such opinion, review, assurance, certification, Post-Issuance Report and/or label may change at any time and the opinion, review, assurance, certification, Post-Issuance Report and/or label may be amended, updated, supplemented, replaced and/or withdrawn.

Prospective investors must determine for themselves the relevance of any such opinion, review, assurance, certification, Post-Issuance Report, label and/or the information contained therein.

Any second or third party opinion, and any other opinion provided in relation to SDG Bonds is a statement of opinion, not a statement of fact. Second or third party opinion providers may not be subject to any specific regulatory or other regime or oversight and any opinions provided are provided for information purposes only and on a no liability basis.

ADDITIONAL NOTE RISKS IN RESPECT OF SUBORDINATED NOTES ISSUED AS SDG BONDS

In the "Summary of the Programme" section of the Information Memorandum, the "Additional Note Risks (Subordinated Notes)" sub-section shall include the following additional note risks:

The SDG Bonds may not meet investor expectations or requirements

While it is the intention of the Issuer to allocate an amount equal to the net proceeds of the SDG Bonds for the allocation to an eligible asset or assets, there is no contractual or regulatory obligation to do so. Additionally, the Framework is subject to review and change and any amendment, update, supplement and/or replacement of the Framework may be applied in respect of the SDG Bonds.

No assurance or representation is given to investors by the Issuer or any other person:

- (a) that, at any time, the use of an amount equal to the net proceeds of the SDG Bonds will satisfy (whether in whole or in part) any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, in particular with regard to any direct or indirect sustainability impact of any projects or uses, the subject of or related to, any eligible assets, eligible businesses and projects under the Framework;
- (b) that, at any time, any assets, projects, businesses or uses the subject of, or related to, any eligible assets will meet or, if met, continue to meet on an ongoing basis any or all investor expectations regarding "green", "sustainable", "social" or other similar labels (including any laws, regulations, market standards or guidance, including the ICMA Principles) or any requirements of such labels or market standards as they may evolve from time to time. Furthermore, it should be noted that there is currently no clear definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green", "social" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green", "social" or "sustainable" or such other equivalent label and if developed in the future, SDG Bonds may not comply with any such definition or label;
- (c) that any adverse environmental, social and/or other impacts will not occur during the implementation of any assets, projects, businesses or uses the subject of, or related to, any eligible assets;
- (d) that, at any time (within any specified period or at all), (i) any assets, projects, businesses qualifying as eligible assets will be available or meet any eligible categories, or (ii) any eligible asset will continue to meet any eligible category, or that the Issuer will be able to replace any eligible assets which no longer meet the relevant eligible category, or (iii) any eligible assets will be, or will be capable of being, implemented in or substantially in such manner and/or in accordance with any timing schedule or at all or with the results or outcome as originally expected or anticipated by the Issuer and, accordingly, there is no assurance that an amount equal to the net proceeds of the SDG Bonds will be totally or partially allocated to such eligible assets; or
- (e) as to the suitability or reliability for any purpose whatsoever of any opinion, review, assurance, certification or Post-Issuance Report of any third party (whether or not solicited by the Issuer) which may be made available in connection with SDG Bonds (including any second or third party opinion).

The Framework has not been assessed for compliance against ICMA's Green Bond Principles of June 2025 or ICMA's Social Bond Principles of June 2025.

SDG Bonds do not benefit from any arrangements to enhance the performance of the SDG Bonds or any contractual rights derived solely from the intended use of proceeds of such SDG Bonds and are not linked to the performance of the eligible assets.

Investors should note that none of:

- (a) a failure by the Issuer (either totally or partially) (i) to allocate amounts equal to the net proceeds, or use the proceeds, of the SDG Bonds in the manner described in this Pricing Supplement and the Framework, or (ii) to evaluate, select and report on eligible assets, or to manage amounts equal to the net proceeds of the SDG Bonds, each as may be described in this Pricing Supplement and/or in the Framework or (iii) to comply

with the Framework, the SDGs or, the ICMA published documents entitled "The Social Bond Principles June 2023", "The Sustainability Bond Guidelines June 2021", "The Green Bond Principles June 2021 (With June 2022 Appendix 1)", "The Social Bond Principles June 2025" and "The Green Bond Principles June 2025" ("**ICMA Documents**") or (iv) to prepare, obtain or publish any opinion, review, assurance, certification, Post-Issuance Report and/or label relating to the SDG Bonds (including any periodic use of proceeds or impact report, as described in the Framework);

- (b) a failure of a third party to provide any opinion, review, assurance, Post-Issuance Report or certification in connection with the Framework or the SDG Bonds;
- (c) any opinion, review, assurance, certification or Post-Issuance Report stating that the Issuer is not complying or fulfilling relevant criteria (either totally or partially) with respect to the Framework or the SDG Bonds;
- (d) any revision, amendment or withdrawal, for any reason, of (i) any opinion, review, assurance, Post-Issuance Report, certification or label relating to the SDG Bonds and/or the Framework, or (ii) any criteria on which any such opinion, review, assurance, Post-Issuance Report, certification and/or label was given;
- (e) the failure of the SDG Bonds to meet investors' expectations or requirements regarding any SDGs, ESG or similar label(s) or characteristic(s); or
- (f) any change in the performance of any eligible asset (including the loss of any SDG, ESG or equivalent characteristics),

will (i) constitute an Event of Default under the Conditions, or (ii) be a breach of contract with respect to the SDG Bonds, or (iii) give rise to any other claim or right (including, for the avoidance of doubt, any early redemption option or right to accelerate the SDG Bonds) of a holder of SDG Bonds against the Issuer, or (iv) require the Issuer to redeem the SDG Bonds, or (v) affect the regulatory treatment of the SDG Bonds.

The occurrence of any of the above factors may, however, cause damage to the ANZ Group's reputation and/or have a material adverse effect on the value of the SDG Bonds and/or result in adverse consequences for certain investors with requirements to invest in securities to be used for a particular purpose who may need to sell the SDG Bonds as a result of the SDG Bonds not falling within their investment requirements. Potential investors should note that there is no recourse to the Issuer in these circumstances.

The market price of SDG Bonds may adversely change

If any of the risks outlined above materialise, this may have a material adverse effect on the market price of the SDG Bonds and also potentially the market price of any other securities intended to finance the Issuer's lending for eligible assets and may result in adverse consequences for certain investors with requirements to invest in securities to be used for a particular purpose (including, without limitation, if such investors are required to dispose of their SDG Bonds as a result of such SDG Bonds not meeting any investment requirements set by or for such investor, which could lead to increased volatility and/or material decreases in the market price of such SDG Bonds).

No assurance of suitability or reliability of any second party opinion or any other opinion or certification of any third party relating to the SDG Bonds

Any second or third party opinions may provide an opinion on certain environmental and related considerations. Any such opinions are a statement of opinion, not a statement of fact.

No representation or assurance is given as to the suitability or reliability of any second or third party opinion or any review, assurance, certification, Post-Issuance Report of any third party made available in connection with the SDG Bonds. Any second or third party opinion and any other such review, assurance, certification, Post-Issuance Report of any third party is not

intended to address any credit, market or other aspects of any investment in the SDG Bonds, including without limitation market price, marketability, investor preference or suitability of any security or any other factors that may affect the value of the SDG Bonds. Any second or third party opinion and any other such review, assurance, certification, Post-Issuance Report of any third party is not a recommendation to buy, sell or hold the SDG Bonds and is current only as of the date it was issued.

The criteria and/or considerations that form the basis of any second or third party opinion and any other such review, assurance, certification, Post-Issuance Report of any third party may change at any time and such opinion, review, assurance, certification, Post-Issuance Report may be amended, updated, supplemented, replaced and/or withdrawn. Any withdrawal of any such opinion, review, assurance, certification, Post-Issuance Report may have a material adverse effect on the value of the SDG Bonds in respect of which such opinion, review, assurance, certification, Post-Issuance Report is given and /or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. Prospective investors must determine for themselves the relevance of any such opinion, review, assurance, certification, Post-Issuance Report and/or the information contained therein.
