

Gerard Florian

Chief Executive Technology &
Group Services

Joined the Executive Committee on 30 January 2017.

Skills, experience and expertise

Gerard Florian is Group Executive Technology and Business Services at Australia and New Zealand Banking Group Limited (ANZ).

Gerard is responsible for defining ANZ's technology strategy, building and managing ANZ's technology infrastructure and driving the Bank's business services framework. This includes overseeing the development of new technologies, implementing existing technologies to help the Bank reach their strategic goals, and creating systems and processes to make the best use of ANZ's resources.

Gerard has worked in technology for more than 30 years. He was previously Chief Strategy Officer for the Global Cloud Business Unit at Dimension Data where he was instrumental in the establishment of a portfolio of cloud-enabled managed services operating on a global platform. Prior to that, Gerard was Chief Technology Officer and Chief Marketing Officer for Dimension Data's Australian division.

Gerard also Chair's the University of New South Wales (UNSW) Technology Advisory Committee since November 2021. He also sits on various global industry and customer advisory boards.

Gerard is a Director of ANZ Bank New Zealand Limited since October 2022.
